

J. N. CHEMICALS

**HANDS ARE
THE BIGGEST
TRANSMITTERS OF
MICRO-ORGANISMS**

**TO PROTECT
SURGEONS, PATIENTS
AGAINST BLOOD BORN,
TRANSMITTABLE DISEASES**

MACIRRIUM
A NOVEL QUICK ALCOHOLIC HAND RUB

**GIVE YOUR HAND-
A MACIRRIUM PROTECTION**

MACIRRIUM

MULTIPLE USE SOLUTION: FOR QUICK HAND ANTISEPSIS

MECHANISM OF ACTION:

MACIRRIUM by its unique penetration enters into the sub-dermal layers of skin and forms of a film prevent the upward movement of microbes contained in the sweat and there by maintains the microbes count on hand at a very low level for prolonged period. MACIRRIUM helps to destroy both transient pathogens and resident skin flora without affecting sweating functions. While using "MACIRRIUM" **there is no need of a prior soap scrub.**

- MACIRRIUM offers complete Asepsis within 30 sec. "From observation it is evident that MACIRRIUM produces complete bactericidal activity with the exposure time of 30 sec. to 1 minute."
- MACIRRIUM is product of advanced indigenous production knowhow.

MACIRRIUM ensures:

- Rapid onset of action
- Complete asepsis
- Persistent activity under the gloves
- Complete protection even in case of gloves perforation
- No adverse effect on skin with frequent use
- Cosmetic appeal

EFFECTIVE AGAINST H.I.V. & H.B.V.

IDEAL HAND ANTISEPSIS FOR :

Operation Theatres, I.C.C.U, Burns wards, Premature baby units, Dental clinics, Surgical & Gynac wards, Sterile manufacturing areas, Pathology Labs.

COMPOSITION:

Each 100 gm contains:

Propan 1-ol	30 gm
